

## **\$1.9 Million in New Contracts for WPCS Includes Ambulatory Wireless System**

**EXTON, PA - (PR Newswire-First Call) - September 7, 2005 - NASDAQ: WPCS – [News](#)** WPCS International Incorporated (WPCS), a leader in wireless infrastructure services and specialty communication systems has announced that it has recently been awarded a variety of new projects totaling \$1.9 million for wireless infrastructure services and specialty communication systems. Included in the contracts awarded to WPCS are projects to be completed for Yosemite Community College, Monmouth County Correctional Center, California Department of Forestry, Mount Laurel Fire Department and the Lakewood, Manalapan, Millburn and Gloucester, New Jersey Police Departments.

Also included is a contract for WPCS/Quality Communications to deploy a wireless communication system for Amcare Ambulance. This project will provide an Automatic Vehicle Locator (AVL) system for a group of ambulances that will be designed to track the vehicles, in order to improve medical dispatch services for patients. In addition, laptop computers will be installed within the ambulances so that emergency medical technicians can transmit patient care reports directly to the hospital while in transit. By transmitting patient care reports in advance, the emergency room will be better prepared to provide the appropriate medical team and medical services for the patient upon arrival.

Richard Schubiger, Executive Vice President of WPCS International Incorporated, commented, "WPCS has completed many ambulatory wireless systems for the healthcare sector. It remains a fast growth area for WPCS. Specifically for Amcare Ambulance, we initiated deployments on a number of ambulances a few weeks ago and we are currently in phase two. A third round of ambulances will be equipped at a later date. This will complete a full wireless communication link between the ambulances and the participating hospitals. The project will positively affect the quality of patient care and medical assistance."

About WPCS International Incorporated:
