

WPCS Awarded \$9 Million in New Contracts

EXTON, Pa. – (PR Newswire – First Call) – August 1, 2006 WPCS International Incorporated (NASDAQ: WPCS), a leader in design-build engineering services for specialty communication systems and wireless infrastructure, has announced that it has recently been awarded a variety of new contracts totaling \$9 million. Some of the contracts awarded to WPCS include projects to be completed for the US Coast Guard, Bally's Park Place Hotel and Casino, New Jersey Transit, San Mateo County Sheriff Task Force, CALTRANS, Sutter Medical Center and the Hartford Hospital.

In addition to these contracts, New England Communication Systems (NECS), a WPCS subsidiary, installed a wireless surveillance network for the township of New London, CT to assist in downtown and harbor security. During the recent annual Sailfest www.sailfest.org held in New London, one of Connecticut's premiere summertime festivals attracting over 300,000 people, the recently installed wireless surveillance cameras captured an automobile accident in progress, which assisted the emergency response team with the investigation. In real time, the system captured and validated video from the surveillance camera that illustrated what had occurred during the accident where festival attendees were also injured.

Myron Polulak, President of NECS, commented, "The wireless network designed and deployed by NECS proved invaluable during the investigation of this automobile accident. This application is one of the many examples of the productive use of wireless technology in public safety. The market for these types of wireless systems is growing fast and WPCS continues to be awarded new contracts due to our experience and cost effective deployments."

About WPCS International Incorporated:

WPCS provides design-build engineering services for specialty communication systems and wireless infrastructure including site design, product integration and project management. The company has an extensive customer base that includes corporations, government entities and educational institutions. For more information, please visit the website at www.wpcs.com.
