

Rutgers University Selects WPCS for Wireless Security

EXTON, PA - (PR Newswire - First Call) - November 19, 2007 WPCS International Incorporated (NASDAQ: WPCS), a leader in design-build engineering services for specialty communication systems and wireless infrastructure, has announced that, through its Quality Communications subsidiary, it has been selected by Rutgers University to design and deploy a wireless network of components for fourteen security patrol vehicles to enhance public safety.

The wireless network consists of patrol vehicle laptops, wireless modems and digital video recording equipment capable of recording high definition video with automatic wireless uploads to a central server. In addition, the network is designed to work in conjunction with the university's record management system and it enables campus officers to get immediate access to law enforcement databases. The Rutgers University Division of Public Safety continues to deploy leading edge technology to insure the safety of its students, faculty staff and visitors.

Michael Kerwick, Director of Sales for WPCS/Quality Communications, commented, "Rutgers University has established a leadership position among colleges and universities in regards to public safety. The network designed and deployed is an example of the university's commitment to campus safety and the confidence they have in our company to provide a cost effective and highly advanced security system."

About WPCS International Incorporated:

WPCS is a design-build engineering company that focuses on the implementation requirements of wireless technology. The company serves the specialty communication systems and wireless infrastructure sectors and provides services that include site design, technology integration, electrical contracting, construction and project management for corporations, government entities and educational institutions worldwide.
